About This Course

Welcome to "EHN - European Handmakers Network"!

This Erasmus + funded project aims to promote handmakers' self-employment and female entrepreneurship, joining the mission of increasing the employment levels and the economic autonomy of European women.

The project is building up a wide handmakers network by bringing together 5 female handmakers from Italy, Poland, Portugal and The Netherlands who are offering their long-term professional experience in the sector to those that have just started operating in this practice or to those who want to transform their home craft business into a job.
